

Blazing Speed • Faster Downloads • Always On • Phone & Surf at the same time • Only \$49.95/month

## Ultra High Speed Internet Access

Dial-up Internet access has been the only choice for most Internet surfers. It relies on dial-up modems that enable users to send and receive data over regular phone lines. While it is inexpensive, easy to install, and universally available -surfers top out at speeds around 50Kbps.

Do you have a need for speed? . . . well **XCELERATOR** is the answer!

- **Blazing Speeds**
- **Faster Downloads**
- **No Numbers to Dial**
- **Always Connected**
- **Talk & Surf at the same time!**

### How fast is “faster?”

The Xcelerator High-Speed Internet service establishes a digital connection that’s nearly 8 times faster than dial-up modems. You’ll be able to use the Internet as it was meant to be. Web pages will snap into view, files will zip downstream with amazing speed, and you’ll be able to play cyber games more smoothly.

### How does it work?

The Xcelerator accesses the Internet and the World Wide Web on unused higher frequencies of existing telephone lines and leading-edge technology in our digital office, resulting in connection speeds up to 384Kbps. Your PC will have to meet certain specifications, you’ll need an ethernet card to establish your connection to the network, an external high-speed modem, and be at home when our service technician performs the installation. BUT, when we’re done it’ll be worth it because...your new Internet connection will rock!

Now you can talk and surf, simultaneously, on the same phone line. No more CallWave or missed calls. **SAVE Money!** If you currently have two phone lines, with one designated for your computer, you may elect to disconnect it and use the remaining line for both voice and Internet applications. And, you can rest assured, Xcelerator won’t interfere with any of your favorite phone tools like Caller ID, Call Waiting, or STOMP.

### No More Waiting!

Connectivity issues are a thing of the past with the Xcelerator. The service is always connected. Simply Click N’ Go! No numbers to dial or waiting for someone in your household to get off the phone. Most of all, no more waiting for an answer to your need for speed. Order the Xcelerator today and get ready for the ride of your life!

#### Regional Offices:

106 W. First	Udall, Kansas	<b>1-800/442-6835</b>
110 W. Bitler	Olpe, Kansas	<b>1-800/440-3018</b>
107 E. Violet	Potwin, Kansas	<b>1-800/387-7739</b>

Powered by DSL

# Surf **800%** faster than Basic Dial-Up Internet Access!

## Only **\$49.95/mo.**

Includes (1) IP address for “always on” connection, local Internet access, newsgroups, and e-mail service. Experience speeds up to 384Kbps download and 128Kbps upload.

### **Gear Kit & Installation: See Pricing Options**

Includes modem gear, network interface splitter or station set micro-filters, installation, conditioning necessary to convert basic phone line to a high speed digital pipe, and DSL Signal check.

## **First Step: Qualifying Round**

Call us today to schedule your serviceability check. Our professional service technicians will make sure your residence or office is capable of receiving the Xcelerator signal. It is not necessary for you to be available on the premises for this procedure. Pre-qualification procedures are provided as a courtesy, free of charge to our customers.

## **Next, talk to your Pit Crew**

Check out your computer's “engine!” Is it ready to receive the Xcelerator high-speed Internet signal? Refer to the enclosed system requirements for specifications. If you don't know if your PC meets the minimum requirements . . . Call us for a PIT STOP! Our knowledgeable Customer CARE staff will step you through the process to find the information needed to answer the service minimum requirements. Just be sitting in front of your PC when you are ready to make your PIT STOP call. The questionnaire takes approximately 15 minutes to complete.

## **Pick a Gear**

During the PIT STOP you will be asked to select a Gear Kit pricing plan. Choose one of the pricing options described on the facing page, the one-year or the two-year plan, that best serves your needs. If you would like to take advantage of our interest free payment program, simply notify the Customer CARE representative assisting you.

Finally, please sign and return the contract on the back side of this information guide to one of our local business offices. Signed contract must be received before your installation can be scheduled.

## **EZPay Plan**

You can use our **EZ Pay** option to pay out the installation fees over a period of months . . . **interest-free!** The monthly service fee and EZ pay installment(s) will be added to your monthly Wheat State Telephone bill.

Pay the installation fee in one installment and receive a second email box **FREE!**

# THE DAY OF THE BIG RACE...

You will be contacted by our service team to schedule your Xcelerator installation. Appointments are scheduled between 8am and 5pm, Monday through Friday. Installation usually requires less than two hours. You or the person most familiar with your PC will need to be on the premises during the installation process.

Prior to starting your installation, the service technician will evaluate your inside phone wiring. It may be necessary to reconfigure your wiring or phone jacks, but we'll advise you of what services are required before we proceed. You can rewire as necessary or you may hire us or a trained electrician to complete the inside wiring configuration.

After the installation is complete, your new high-speed digital phone line will send you zooming down the Internet raceway in high gear. Are you ready for the ride of your life?

★★

*If you would like to move your DSL connection within your residence or business a move fee of \$47.50 will apply. If you move to a new address within a serving exchange a move fee of \$95 will apply. A serviceability check for the new location may be necessary. Extend your current contract or sign a new 12-month commitment and your move fee is waived. If your service is interrupted due to non-payment a \$95 restoral fee will apply in addition to the normal telephone service restoral fee of \$16.00. Modems damaged by lightning, storms, vandalized, etc. may be replaced at the current market price. These types of damages are not covered by the manufacturers warranty.*
